

Inyeong Jang

726iy@duksung.ac.kr | [GitHub](#) | [Portfolio](#)

Education

- Duksung Women's University, Seoul, Korea
B.S. in Computer Science, Engineering and Converged Technology
Mar. 2023 – Feb. 2028
GPA: 4.43/4.5

Language

- TOEIC 840

Research Interests

- Automated Program Repair (APR)
- Software Testing and Verification
- Software Security

Publications

- Improving Automated Patch Correctness Assessment by Designing LLM-Based Oracles** [[Paper](#)]
Inyeong Jang, Jinyoung Kim.
IEEE International Conference on Software Testing, Verification and Validation (ICST), 2026. (Research Track)
- AutoFiC: An LLM-based Automated Security Patch Generation Pipeline.** [[Paper](#)]
Inyeong Jang, Jeongmin Oh, Minchae Kim, Eunsol Kim.
Korea Conference on Software Engineering (KCSE), 2026. (Oral Presentation)
- SCSC: Supply Chain Security Cross-reference Framework and Platform Proposal.** [[Paper](#)]
HaKyeong Choi, Yeseo You, Inyeong Jang, Hyein Lee.
Conference on Information Security and Cryptography (CISC). Winter, 2025. (Poster)

Projects

- AutoFiC: LLM-based Automated Security Patch Pipeline** [[Page](#)] [[GitHub](#)]
End-to-end pipeline integrating SAST-based vulnerability detection, LLM-based patch generation, and automated pull request creation for open-source projects.

Awards

- Best Undergraduate Paper Award**, Korea Conference on Software Engineering (KCSE), 2026
- KT Digital Talent Scholarship**, KT Group Hope Sharing Foundation, 2026
- Academic Excellence Scholarship**, Duksung Women's University, Spring 2023 – Spring 2026
